

Admissions

Taking care of our guests is a top priority at Second Chances. This quality of care begins during the admissions process into any of our rehab programs. We want to assure you that your communication with us is always private and confidential.

Upon first contact, our intake coordinator will work with the guest or their main point of contact to obtain:

- ▶ Demographic information
- ▶ Insurance or Medicaid information
- ▶ The guest's substance abuse history
- ▶ Any additional, pertinent treatment history

Then, the intake coordinator will check benefits and make sure that the guest meets medical criteria. Second Chances works with several major insurance companies as well as Medicaid. Our team can assist guests in signing up for health coverage on site.

From there, the counselor will work with the guest and their family to assign and communicate further details about their personalized treatment plan.

This intake and admissions process can take anywhere from 24-48 hours depending on the variables of each guest's case and needs.

About Second Chances

The mission of Second Chances Addiction Recovery Center is to provide hope, healing, and restoration to individuals and families struggling with addictions.

True substance abuse recovery must occur in three areas: physical, emotional, and spiritual – our substance abuse programs are designed to address all three key areas from day one of anyone checking into our rehab programs.

Our guests receive the structure of a residential treatment facility, with the privacy and safety of a refuge as they embark on their journey of recovery.

This helps ensure that they take time to regain their physical and psychological strength after dealing with addiction or an unmanaged mental health disorder.

"If you're going to get better, you have to learn how to trust somebody. You can't do this on your own. You have to step out into that fear, and let somebody help you."

Josh Johnson, Clinical Director

Rehab Program

Our rehab programs are designed to address all three key areas from day one. This is why each guest's program is customized to fit their unique needs. Each treatment program is created in collaboration with a guest's healthcare professional, counselor, themselves and their family to ensure a complete recovery.

We offer the following programs:

- ▶ Residential and Co-Occurring Treatment
- ▶ Intensive Outpatient Program (IOP)
- ▶ Detox Program
- ▶ Family Therapy Program

We accept the following insurance:

- ▶ Amerihealth Caritas
- ▶ Aetna
- ▶ Aetna Better Health
- ▶ Blue Cross Blue Shield
- ▶ Cigna
- ▶ Healthy Blue
- ▶ Humana
- ▶ Louisiana Healthcare Connections
- ▶ Optum
- ▶ TRICARE West
- ▶ United Healthcare Community Plan
- ▶ Private Pay

Visit our website secondchancesrehab.com or give us a call at 833-780-3088 for more in-depth information about these programs.

Treatment Center

Second Chances Addiction Recovery Rehab Center is nestled "off the beaten path" in Rayville, Louisiana.
